Obamagrams

3 Timely and merciful truth revealing stories from the Premier Designer of the English Language and World History, Our Creator.

The chance the following three pure anagram "truth telling and perfect stories" have arisen by some astonishing coincidence - each line an anagram and all the hundreds of witty pieces fitting perfectly together into each overall theme/story is 1 to thousands of trillions. In other words, these are no amazingly incredible coincidences.

See, The "bad guy" is supposed to come as an angel of light in the name of world peace... but only as a temporary ruse.
(Obama works for the interests of the elite international bankers, not us regular folks. If he didn't the World's secretive Finance Pharaohs would not approve and he would lose his job quick, like John Fitzgerald Kennedy (JFK))

The medium scribe of this booklet also adds that he is diametrically opposed to Obama's recent activity in supporting a new "cyberbullying" bill, where say if you text something over the internet to someone who feelings are saddened by it, the person would be able to complain and the government then has the option of charging you with a felony.

That would be totally tyrannical anti-1st Amendment; promoting people fearing everyone else, including the elite international banker's world government.

Anagrams, or the rearrangement of letters of a word or phrase, have often been said to incredibly contain hidden deep wisdom.

Otherwise, perhaps, the future is already foretold.

The beast is not loyal to anyone, only the beast itself, even Obama.

"They", the global Finance Pharaohs, will apparently ass-asinate Obama.

If Obama is not seen at ground zero prior to the the nuclear detonation (Washington DC?),
then Obama was not assassinated; his demise would only be yet another ruse.

Why a nuke? The incredible decoding states: "***A bomb eradicated prank!***"

Universal People's Statement of *Freedom*

Lovers of Freedom have continuously struggled against the forces of tyrannical governments for multitudes of centuries in the ever deceptive and animated contest between the spirit of enslavement versus the spirit of liberty. When in the course of world events it becomes clear government has become intentionally deceitful, destructive, and murderous - using any form of falsehood, manipulation of media, or theater as cover for an array of crimes - as well as for the next form of government, it is a matter of self-defense for the people of the nation and the world to throw off a corrupt system of government enslavement; and with expediency set then widely announce another special date, apart from July 4th, that will in the future echo worldly celebrations of the cause of liberty. The people should subsequently convene in large numbers on that date and also through the public global computing system of the time, for a convention of the people. The result of the open convention is to have authored, selected, and begun the implementation of a more protective system of shared rights, law, governance, and justice for the current and future generations; of any nation; for the collective happiness of all.

The laws of a Republic should be written clearly in the form of a constitution. However when once trusted political figures individually or as a whole concert of corruption, or the distribution of wealth or establishment system as a whole, betrays the trust of the citizenry by operating outside of the rules and constraints listed in such a constitution, then the citizens of the broken republic should take the stated recommendations of their previous declaration of independence & constitution, along with methods of self defense, back into their own hands. More than responsibility, it is the most sacred duty of the spirit of liberty and justice for all.

By the year 2008, through a persistent stream of offensive actions, including 9-11-2001, the organization widely known as the "United States Government" has declared itself murderous; while bankrupting the working class of America and instituting fascist rule. It has become evident to multitudes of people of every nation that the current government is allied with a cabal of corrupt international banking, war-mongering, so-called "freemasonic", "illuminati" or "new world order", interests. Therefore the "United States Government" has severely turned away from serving its sacred cause of freedom! Therefore the "United States Government" has failed and is de facto illegitimate as of the time of the announcement of this declaration at the start of the new people's convention. Revolution is the only possible cure for fascism; and it has already gone beyond the need for a once independent people to have a fresh start! The people's convention date will be decided by the truth movement.

Consequently, All of its previous authority over the citizenry is thereby removed by this declaration; and All freemasonic governments worldwide should be dissolved entirely by the great many world's people. All existing mob-ridden local governments over the individual and the municipalities should be fully dismantled, re-instituted, and rebooted with a fully transparent, efficient, protective, and accountable system model the people's convention democratically selects. All civil rights & laws should be voted for in a true 1-person-1-vote democratic and transparent form - as we always carry a vital responsibility to together choose what has control over our lives and what would ensure us maximum safety & happiness.

This progressive change of government should be enabled and empowered by the entirety of all national and returning armed forces together with all non-terminated local police and the widespread armed citizenry. No more system tyranny.

As we acknowledge this world-wide published declaration in multitudes, **we pledge allegiance to each other.** We are firm in our disassociation from the previous "United States Government" or any corrupt power. In unison We proclaim to disallow that organization to silence us, to control the mass media or the internet, to suppress us, to spray chemicals upon or conduct any experiments on us, to detain us, to imprison us, to terrorize nor genocide us, to tax us, to bill us, to create dollars or borrow credit, nor counterfeit paper money, to legislate for us nor to adjudicate any proceedings, to direct our armed forces, to make war, or make agreements in our name, nationally or internationally. We are fully aware of our God-given rights including dissent.

Addendum: Initial action list for the people's convention (initial recommended date: July 5th, 2009; place: St. Louis, MO)

- *Withdrawing our businesses and franchises from federal or state-wide taxation of the "United States Government" and its equally corrupt mother companies, the United Nations, International Monetary Fund, and World Bank.*
- *Create a new fully accountable system of money and taxation commissioned by the improved freshly-chartered citizen's government to: pay off all national debts, redistribute wealth fairly, fund the new government, and reinvigorate the economy.*
- *Build a beautiful new national capitol city designed by non-freemasonic architects and constructed by the many hands of the nation within a large, and voted-upon, national forest or parkland. A new capitol is essential to mark the change in thinking.*
- *Close and refurbish Washington DC, and possibly convert the former capitol into a city-wide orphanage and school campus for the nation's underprivileged citizen children; dedicated in honor of patriots who lived bravely before us without shame.*
- *Establish a new passport identification, numbered as chronologically signed, and imprinted inside a new & improved Bill of Rights - to be made available for all listed and future citizen signatories of this declaration of freedom from system tyranny statement; that anyone and everyone around the world is invited to recognize and support together forevermore. (All inmates individually reviewed for possible release.)*
- *Project Fresh Start – Organic Home Gardening Incentive Program, using a portion of elite reclaimed wealth, to finally solve world hunger.*

Democracy arises out of the notion that those who are equal in any respect are equal in all respects; because men are equally free, they claim to be absolutely equal. Republics decline into democracies and democracies degenerate into **despotisms**. - Aristotle

If the world knew how to use freedom without abusing it, tyranny would not exist. - Tehyi Hsieh

The modern banking system manufactures money out of nothing. The process is perhaps the most astounding piece of sleight of hand that was ever invented. Banking was conceived in inequity and born in sin... Bankers own the earth. Take it away from them but leave them the power to create money, and, with a flick of a pen, they will create enough money to buy it back again... Take this great power away from them, or if you want to continue to be the slaves of bankers and pay the cost of your own slavery, then let bankers continue to create money and control credit. - Sir Joseph Stamp, former president of the Bank of England

Yes, we did produce a near perfect Republic. But will they keep it, or will they, in the enjoyment of plenty, lose the memory of freedom? Material abundance without character is the surest way to destruction.

Soldiers Code

1. I am an American soldier - A protector of the citizenry, sworn to uphold the Constitution of the United States.
2. I will treat others with dignity and respect and expect others to do the same.
3. I will honor my country and my fellow soldiers; those who are not traitors to the Bill of Rights & Constitution.
4. I am proud of my country and its flag. I wish to look back and say that I am proud to have served my fellow citizens as a soldier.
5. Lastly, no matter what the situation I am in, I will never do anything for pleasure, profit, or personal safety which would disgrace my country, my uniform, my unit, my high school class, and the people of my country.

US Citizen's Legislation Bill #001 written by an anonymous middle-class American Citizen
*Re-igniting the great debate of **what is the "American Dream"?** - Similar to the Boston Tea Party of 1773*
April 2nd, 2009 Released to the public at large (global internet) for immediate widespread consideration!!!

A Truly Modest Proposal to End Home Foreclosures (forever ending the 'idea/concept' of home foreclosures)

{ So that every family's homestead residence be **guaranteed** lastingly & securely in a unique individual's name, or a particular family's general surname, **permanently** until they would otherwise resell it or bequeath it to their lineage, and have up to 1-whole-year grace period at any time between payments to resume payments with 0% risk of bank foreclosure. So a family homestead may be incrementally paid-off slowly, if needed for a particular family, such as over 150 years (5 generations or 1.5 centuries), whereby the individual person and their family would **never** risk losing their roof over their head to foreclosure.

We The Common People need to end the whole idea of foreclosure. This will save the Real Estate market from further collapse and reinvigorate new home building nationwide. New houses can be built and should be built all the time, not made vacant while a tsunami of jobless people/families are piling into tent cities, such as the large one now first forming in April 2009 in Sacramento California. The home-lending/mortgage system should be dramatically remodeled immediately as the economy is not going to improve anytime in the future as furnished by the existing corrupt system. New home builders should be given first right of refusal to be the lender for a new type of mortgage called a "Variable Principle-Mortgage". Property Titles of *existing homes* should be stripped from banking system possession and held by *newly chartered* "Variable Principle" lending firms.

Since the nation of the United States national debt is mostly leveraged by a current system of 30-year-mortgage-based-securities, the current bad financial system of leveraging home mortgage debt as the primary collateral held for the nation's national debt would need to be replaced. It would need to be dramatically remodeled along with the abolishment of all *derivative* schemes. We should stick the politicians & bankers that gave us this astronomical national debt, the bill, instead of us and our children having to pay for it with 40-60% tax rates. The titles of people's homes should not be held collateral for a rouge government to increase an already too massive international borrowing/national-debt scheme as is practiced today. Also the idea/concept of "property rent"/"property tax" should be **eliminated** and people should instead receive a billing statement in the mail for local/city services as part of the solution to solving the foreclosure problem. We recognize this as real positive "Change".

Death to bank home/farm foreclosures of our neighbors and fellow countrypeople! And home security forever for The People! }

First proposal/draft citizen's legislation to stop foreclosures, as drafted in America April 2nd, 2009:

So that... **property shall be guaranteed** in their unique individual name or family surname **permanently** until they bequeath inhabited-property/contract to a subsequent generation of family or resell their contract/property freely to another; that in such case of transfer of ownership, the transfer cost shall only include a nominal transfer fee of no more than 1% of the principle value of the contract/property at that given time.

Each individual property/contract owner shall have at least 6 months to up to 1-year grace period at any time to resume payments, between any two payments made. If it would take 3-4 generations of a family to pay off a single home + yard then so be it; such as a 150 year period. Every "variable principle"-mortgage-contracted person w/family members **nevermore** would lose their primary home residence to foreclosure.

Home owners will now be able to view over the internet their constantly changing loan/contract principle amount in order to pay off the principle. The principle debt-owed would only be affected by factors such as general monetary inflation/devaluation; and equally adjusted for all. Minimum yearly payments are that factor.

Therefore no police, or military - goodness forbid, shall be given orders to evict the named individual or their family from any contractually protected property, unless the nominal minimal yearly payment is not met.

For new homes built - individual new home residents shall remit payments to reduce their loan/contract principle amount directly to the builder; who will hold the title until the contract is paid off. The value of the public stock of the building companies will swell and be reinforced and remain strong into the future because the building companies would be constantly creating and holding title to a large percentage of the nation's new wealth; while lastingly and entirely restricted by the people of any power to foreclose on any and all individual family homes under the stated terms described in the previous paragraphs of this bill proposal.

A Truly Modest Proposal to End all Foreclosures ... (ending the 'idea/concept' of foreclosures)

Page 2

The individual will be required to make ***1 nominal (minimal) payment*** per year that anyone with a job in a family would be able to afford, for instance \$1500. If the annual minimum payment (paying the principle down to offset a general monetary inflation difference + a very small governed commission rate for the mortgage service itself) isn't met, at that time the property could be retitled; the family would risk eviction.

If someone can save \$5,000 they can move into a \$100K home permanently (5% down should be standard)

However if the minimum required payment, for instance say \$1500, is not paid annually (to cover at least any annual general monetary inflation), then the builder or "variable principle mortgage"-lending-institution would retain the right to resell/re-title the house to another party -- only then would police have jurisdiction to evict a family. { But what family would not be able to pay *one* typical house payment - per year? }

This proposal is only for homes/properties. Car loans are unaffected by this bill and auto loans would still need to be paid off monthly or risk repossession.

~~~

In short summary, the existing banks of the existing banking system *\*should not\** be allowed to furnish fixed or variable rate mortgages on family homestead properties and have complete dominance over the home mortgage industry. For-profit banks should furnish car and commercial loans, but bank-foreclosures on family farms & homes should be stopped immediately by the middle-class People of this once great nation; who at one time commonly believed in the Bill of Rights and the "American Dream". We just need to say so.

Existing for-profit bank companies would still be allowed to manage car, commercial, and business loans, and ATMs, and savings and checking accounts - but no more banking foreclosures on distressed-american-families, our countrypeople!!! If the banking system won't agree to relinquish titles to exiting homes (and they won't initially), they should be met with force; in true American pioneer fashion. Maybe only then will they hear the voice of the American People ROAR in unison before this increasing tsunami of family home foreclosures is allowed to continue. We know the Federal Reserve Bank and the politicians have gotten us into astronomical debt and sabotaged our economy. We can end their tyranny this way. The result would also be a boon to the building market; if there are more people entering homes. The title holder of the property is the home building company. End of the foreclosure problem with no bank middleman. So then our brothers and sisters are secure in their homes no matter whatever might happen to the economy; pending natural disaster(s) -or- government sponsored "false-flag" terrorism or world wars as have been part of the tyrannical agenda of the existing monarchy of corrupt banking and it kingpin's agenda for decades. Just a simple, better, system; for happiness for all.

As one example existing today outside of America: in Brazil if you own a house (only 1) and you live in that house, you can declare it as "Bem de Familia!" ("Property of the Family!") and that property is 100% protected from any foreclosure or family eviction. Additional benefits include helping keep families together. Also there would be no need/function for credit analysis for an individual or family to move into their own "homestead (just 1)" home; just one 5% down payment and at least one minimum payment per year.

***Boston Tea Party ("Secure Your Future - Make Change Happen!")***

***An act of defiance toward the British government by American colonists; it took place in 1773, before the Revolutionary War. The government in London had given a British company the right to sell tea directly to the colonies, thereby undercutting American merchants. A group of colonists found a ship in the harbor of Boston that was loaded with the company's tea. They dressed as Native Americans, boarded the ship, and threw hundreds of chests of tea overboard. The British government then tried to punish the colonists by closing the port of Boston, but this move only intensified American resistance to the rule of the king/monarchy. For more information on the spirit of freedom see [infowars.com](http://infowars.com) Help dump more tea in the sea by printing and emailing this for your friends as fast as possible.***

If the American People do exercise their voice in unison perhaps his bill may be commonly known as: The American Homestead Security Act

## Why Obama scares me, too

---

Posted: June 15, 2009  
1:00 am Eastern

The New [York](#) Times missed the opportunity to publish [a great op-ed letter](#) to President Obama from [Lou Pritchett](#), a former vice president of Procter & Gamble who worked for that [company](#) for 36 years until his retirement in 1989. So I thought I'd give his letter a little press through my syndicated column, and add a few more thoughts of my own.

Mr. Pritchett confirmed via [Snopes](#) that he was the author of the "open letter to President Obama": "I did write the 'you scare me' letter. I sent it to the NY Times but they never acknowledged or published it."

I think you'll readily see why any Left-leaning newspaper won't run it. Here's a copy:

Dear President Obama:

You are the thirteenth President under whom I have lived and unlike any of the others, you truly scare me.

You scare me because after months of exposure, I know nothing about you.

You scare me because I do not know how you paid for your expensive Ivy League education and your upscale [lifestyle](#) and housing with no visible signs of support.

You scare me because you did not spend the formative years of youth growing up in America, and culturally you are not an American.

You scare me because you have never run a [company](#) or met a payroll.

You scare me because you have never had military experience, thus don't understand it at its core.

You scare me because you lack humility and "class," always blaming others.

You scare me because for over half your life you have aligned yourself with radical extremists who hate America and you refuse to publicly denounce these radicals who wish to see America fail.

You scare me because you are a cheerleader for the "blame America" crowd and deliver this message abroad.

You scare me because you want to change America to a European style country where the government sector dominates instead of the [private sector](#).

You scare me because you want to replace our [health care system](#) with a government controlled one.

You scare me because you prefer "wind mills" to responsibly capitalizing on our own vast oil, coal and shale reserves.

You scare me because you want to kill the American capitalist goose that lays the golden egg which provides the highest standard of living in the world.

You scare me because you have begun to use "extortion" tactics against certain banks and [corporations](#).

You scare me because your own political party shrinks from challenging you on your wild and irresponsible spending proposals.

You scare me because you will not openly listen to or even consider opposing points of view from intelligent people.

You scare me because you falsely believe that you are both omnipotent and omniscient.

You scare me because the media gives you a free pass on everything you do.

You scare me because you demonize and want to silence the Limbaughs, Hannitys, O'Reillys and Becks who offer opposing, conservative points of view.

You scare me because you prefer controlling over governing.

Finally, you scare me because if you serve a second term I will probably not feel safe in [writing](#) a similar letter in 8 years.

Lou Pritchett

Thank you, Mr. Pritchett, for your love for America, honesty and willingness to risk your reputation by speaking up to this [administration](#)

.Now let me add a few of my own fears to yours.

President Obama:

You scare me because so many amazing corporate and American leaders like Lou Pritchett say things about you like: "You scare me."

You scare me because, after you initiate more government borrowing and bailouts than all presidents combined, you require Congress to follow a system that is "[pay-as-you-go](#)." You scare me because you really do believe that going into massive amounts of debt can remedy our economy in the long run.

You scare me because you repeatedly still play the blame game with the Bush [administration](#) but never blame the Clinton administration, even though it was responsible for the Fannie Mae and Freddie Mac sub-prime fiasco via the proliferation of loans to low income unqualified borrowers.

---

You scare me because you buy and run banking, [automobile](#) and soon health industries with taxpayers' money but refuse to call it socialism. You scare me because your actions don't reflect the federal governmental constraints and fiscal prudent principles of our Founding Fathers and Constitution. You scare me because you promise to lead from the center but drive hard and fast to the Left.

You scare me because you claim to be a fighter for minorities and constitutional promises of life, liberty and the pursuit of happiness, yet what greater minority can be defended than those in the womb, against whom you have already enacted [more pro-abortion-related laws](#) than anyone since Roe v. Wade?

You promise to defend the U.S. against all potential enemies, yet you pacify those who harbor terrorists, fight for the rights of combative detainees, and enable the enemies of Israel. You scare me because you [deny America's Judeo-Christian heritage](#) before other countries of the world, espousing "[the promise of a secular nation](#)" during an age in which [religious revisionism is already on the rise](#). (Thank God for [Rep. Randy Forbes, R-Va.](#), and others, who are even now trying to preserve America's religious history by proposing the passage of the [Spiritual Heritage Bill](#) 397 – call or write [your representative](#) today to support it).

You scare me because your media team (including the mainstream media) will seek to label as radical, quarantine socially or in some way penalize any opposing conservative voices (like conservative talk-show hosts, news agencies, columnists or fellow actors like [Jon Voight](#)). You scare me because, as we've all watched over your first 100 days in [office](#), you can get away with all these things mentioned above, and the mainstream media and most of the public will continue to hail you as king.

You scare me because your media team will not address or diminish in any way your deification before the world, epitomized by the editor of Newsweek, who was on MSNBC's [Chris Matthews' show and recently stated](#), "I mean, in a way Obama's standing above the country, above the world. He's sort of God." (How much scarier can it get than representative statements like that in a republic that once stood for equity among political powers and a government "by the people and for the people"?)

America, it's time to [awaken from your slumber](#) and quit looking to the government for answers, and start looking to real reputable sources. I recommend starting with Lou Pritchett's 1995 business book, "[Stop Paddling & Start Rocking the Boat](#)."
